

K-LOVE operating on 91.1 out of Denver, serves Fort Collins. Myself, my family and my church is served very well by this radio station. We listen to it daily and support it financially. I understand there is some potential move to displace K-LOVE by an LPFM broadcast provider that would provide other programming. It is not acceptable to lose this listener-funded Christian radio station from our community, as there is no other replacement. Given how many people (myself included) and groups are served by this radio station, it is in the public interest to let it continue to broadcast and not be displaced. Thank you for your consideration of this request
